Gladiolus. MRS. F. C. HORNBERGER, we believe to be the greatest white Glad., for commercial use, introduced in 1925 with a limit of 3 bulbs per customer, it won first prize for best spike in the show, at Hartford, Conn., Sept. 9, 1926. On August 21, 1927, it won the Championship Cup at Boston, Mass. for the three best spikes in the show, also received first on pure white. We are preparing an illustrated booklet on this and other varieties, out in January. On large orders for our own varieties, we can quote prices on bulblets by quart or pint. Where grower is willing to maintain our prices, for two years, we can also furnish Electros, showing these to greatest advantage.

Generous count and size on all orders.
Order early to avoid disappointment.

NOTE:

In addition to the following list, we have several hundred varieties of new novelties and popular standards and can quote prices on complete lots of bulbs and bulblets, as we must dispose of some varieties we have which are too many to list, because our own varieties will make a big list within a year or two. If interested in SETS or lot quotations, make up your own combinations, send us two copies and we will quote as reasonable as any other reliable grower. Lot quotations, not itemized. (list on request, available Jan. 1)

We can furnish all sizes and bulblets of following new kinds at the originators trade prices. Gold Eagle, Break O'Day, Sulphur Frills, Los Angeles, Frau Dr. Hauff, H. Kanteitzer, VICTOR (Australian) Florence, Giant Nymph, Sunset Glow, Miss Tea Rose, Red Fire, Purest Of All, Pearl Of Calif, Phaenomen, Mrs. Van K., Triumphator, Atherton K., Jean De Tallies and scores of others.

We have tried to make our prices as reasonable and fair as possible, and these are based on other quotations, now on market in late October. We are willing to meet any price changes by other growers later in season, if prices should be lower, if higher, we will maintain these prices as long as stock is available. To induce early orders, and to cover any possible price changes that may be necessary later, we will add 20% in quantity, or in size, as preferred to each variety ordered from our REGULAR LIST as indicated above. This offer valid until Jan. 10, 1928 only. New list may omit many items above. Bulbs grown on new clean, sandy gravel soil, bright and clean, all treated with approved solutions before planting, bulbs that will please you. Remember, until Jan. 10, 1928 we will add 20 bulbs to each 100, of any variety you purchase, or 20% of total. With 10 bulbs you get two bulbs free. This offer applies to bulbs and bulblets. Our grading is standard but we omit the very small No. 6, and can quote you on this size, which we call No. 7: Bulblets per quart or peck: Ask for special prices.
